

# Public consultation on the Capital Markets Union mid-term review 2017

Fields marked with \* are mandatory.

## Introduction

---

### Purpose of this consultation

The Commission aims to publish the Mid-term Review of the [Capital Markets Union \(CMU\) Action Plan](#) in June 2017. The Mid-term Review aims to:

- take stock of progress on the implementation of the CMU Action Plan;
- reframe actions in the light of work undertaken so far and evolving market circumstances;
- complement the CMU Action Plan with new measures which constitute an effective and proportionate response to key challenges.

This consultation provides an opportunity for stakeholders to provide targeted input to revise the CMU Action Plan. The preparation of the CMU Mid-term Review will also draw on relevant submission and findings from the [Commission's Call for Evidence on the EU regulatory framework for financial services](#).

Respondents are invited to provide feedback on the questions raised in this consultation document by 17 March 2017. Respondents are invited to provide evidence-based feedback and specific operational suggestions. The use of the on-line questionnaire is encouraged.

### Context of the consultation

The Capital Markets Union (CMU) is a core component of the Commission's Investment Plan for Europe to boost jobs, including youth employment, and growth. It encompasses the reforms of our financial system needed to enable the flow of private capital to fund The EU's pressing investment challenges – in the domains of infrastructure, energy transition, but particularly in financing growing businesses. CMU seeks to better connect savings to investment and to strengthen the EU financial system by enhancing private risk-sharing, providing alternative sources of financing, and increasing options for retail and institutional investors. Removing obstacles to the free flow of capital across borders will strengthen the Economic and Monetary Union by supporting economic convergence and helping to cushion economic shocks in the euro area and beyond, making the EU economy more resilient. This is even more important in the current economic environment.

The CMU Action Plan of September 2015 set out a comprehensive programme of 33 actions to put in place the building blocks for the CMU. Alongside the [Single Market Strategy](#) and [Digital Single Market Strategy](#), CMU sits at the heart of the EU reform agenda for a deeper and fairer Single Market, and remains a flagship priority of this Commission.

The evolving economic and political context in the EU, as well as pronounced differences in the maturity of capital markets across Member States, shows that developing stronger capital markets in the EU is more important than ever. The EU economy needs bigger and better capital markets to help break its reliance on bank lending and diversify its sources of funding. The configuration of EU capital markets is faced with significant change in the years ahead. However, whatever the precise configuration of those markets, it is clear that the EU must remain strongly focussed on developing capital market finance as a complement to a restored banking system, and to ensure that, as capital markets deepen, the capacity to supervise and manage risks keeps pace. The work on setting the broad policy framework and creating the right enabling conditions for capital markets to finance the real economy should continue.

This is why on 14 September 2016 the Commission adopted a [Communication to reaffirm its commitment to the CMU](#). This Communication calls for an acceleration of the reforms and reviews priorities. The Commission firmly believes that, to reap the benefits of the first CMU commitments, there is a need to speed up the legislative process, starting with the long overdue securitisation package and the implementing measures of the Prospectus Regulation.

The CMU pipeline is delivering. Some 15 initiatives have been completed by the Commission, which corresponds to almost one-half of the CMU Action Plan. Several more will be completed in the coming months. As we approach the end of the delivery of the first wave of CMU-building, it is appropriate to take stock of what has been done, its effectiveness in addressing policy challenges, and how to build on these foundations.

The aim of this consultation document is to seek feedback on how the current programme can be updated and completed so that it represents a strong policy framework for the development of capital markets, building on the initiatives that the Commission has presented so far. To support the discussion, this document provides an up-to-date overview of the state of implementation of the CMU Action Plan.

The document retains the structure of the CMU Action Plan which identifies six policy areas on which CMU building should focus. Under each heading, the consultation paper identifies outstanding issues and challenges, having briefly recalled the drivers for policy action and the work done so far.

Respondents are invited to provide concise and operational suggestions on measures that can be enhanced and on complementary actions to deliver the policy goals.

**Please note:** In order to ensure a fair and transparent consultation process **only responses received through our online questionnaire will be taken into account** and included in the report summarising the responses. Should you have a problem completing this questionnaire or if you require particular assistance, please contact [fisma-cmu-mid-term-review@ec.europa.eu](mailto:fisma-cmu-mid-term-review@ec.europa.eu).
